About Me

I am a junior Full-stack Developer with basic knowledge of HTML, CSS, JavaScript, React and Node.js. Ready to quickly take the best experience of your company and return it to you in the form of code. My main strength is the ability to learn quickly and make decisions. Thanks to my self-organization, I can stick to the deadlines of your company. I guarantee you a high level of soft skills, which will allow me to work effectively in your team. I will be glad to demonstrate my hard skills through the execution of a test task.

Project Experience

 [Filmoteka](#) [GitHub](#) (HTML, SASS, JS, REST API, AJAX, PARCEL)

Website for film search and selection. Responsibilities: team coordination, conflict resolution, and ensuring the involvement of each developer. Personally implemented functional features: opening a modal window when clicking on a film card, making backend requests to retrieve data about individual films, and developing the logic for adding and removing films from the respective array in local storage.

Role: Team lead, developer.

 [TaskPro](#) [GitHub](#) [Back](#) (React, Redux, Node.js, MongoDB)

An application for time management. Responsibilities: coordination of front-end and back-end development, organization, and implementation of the state manager. Acquired skills: teamwork, ability to make quick decisions, multitasking, development of Redux logic and its support, searching for and fixing code errors.

Role: Team lead, fullstack developer.

 [PersonalPortfolio](#) [GitHub](#) (HTML, SASS, JS)

A developer's portfolio website. Acquired skills: creating of a multipage website, responsive CSS, use of preprocessors, JS for better user experience, writing modal windows, using vector graphics.

Role: Developer, individual project.

Work Experience

 ProteinPlus | 2020 - 2023 | Wholesale Sales Manager

- Attracted new customers who buy up to 50% of imported goods;
- Increased monthly sales of new brands from 0 to 1,000,000 UAH in * months (details are commercially sensitive).
